SEWING MACHINES—CAUTION.— MACHINE, patented Oct. 139, breeby Caution the Public against purchasing or using Machines which infringe upon their patent, as they will prosecute to the extent of the law all such luftingments. MACHINE, patented Oct 1219, hereby Caution the Public against purchasing or using Machines which infringe upon their patent, as they will prosecute to the extent of the law all such lufting ments.

Our machines are now offered for sile for the first time. They have been in use in this city for one year. One firm has made ten thousand dozen Cloth and Plosh Caps. Several other companies have employed them very profitably in making clothing, carpet and grain begs, and for other purches. There are a number now in use at the factory of H. W. Banks & Co. Fim, corner of Canal-st. where those wishing to purchase are invited to call and see them to operation. Mosers H. W. B. & Co. are authorised to make sales of Rights or Machines for use in this city.

These machines are so easily managed, that a child of 14 years of age has kept seven machines (which are propelled by steam and employed in making bags) in good order for some monthly past, stending at the same time to the ranning of her own machine and doing with it the work of four adults if sewing by hand.

ning of her own machine and adong with it he work of four adults freewing by hand.

These machines can be driven by hand, treddle, or steam power. To persons wishing to make an experiment before buying, a machine would be rented at a moderate price. We confidently assert that these are the only machines of the machines and while we invite an examination of the machines now it operation, we repeat our caution against infringments, which will certainly be prosecuted.
